Capabilities Statement

What you approve in the render is what gets installed.

TeagleMax LLC designs, builds and installs custom millwork across Dallas–Fort Worth, for builders, contractors and homeowners. We work on new homes, remodels and commercial projects, turnkey or installation only. The team that draws the piece is the team that installs it.

01 Turnkey

Includes design, material, delivery and installation.

- Custom Cabinets
- Custom Doors
- Custom Walk-in Closets
- Fireplace Built-ins / TV Walls
- Custom Trim / Millwork
- 3D Design & Renders

02 Installation only

The builder or client supplies the material. We install it.

- Cabinet Installation
- Door Installation
- Hardware Installation

Door types: swing, sliding, barn and pocket.
Contracts by project or by phase.

03 On site

Crews by phase
Cabinets, doors, trim and hardware are scheduled as separate phases, with a crew for each one.

On schedule
Dates are agreed before work starts, and the crew arrives prepared to meet them.

A clean site
The crew leaves its work area clean.

One contact
One person answers for the work, from the first visit to the final walkthrough.

04 Method

01
Consultation & survey
Site visit, measurements and scope.

02
3D design & render
A model for review and sign-off before fabrication.

03
Fabrication & delivery
Material produced, then delivered to site.

04
Installation & handover
Installation, adjustment and a final walkthrough.

05 Service area
